 Order from OTS \$0.50 60-21238

Trans of Mechanizacja Rolnictwa (Poland) 1958,
 v. 5, no. 7, p. 14-16.

Types of electrical insulation for rural installations
 which are required by various national codes are
 considered, with reference to practical and economic
 problems peculiar to Poland. Domestic production of
 safety circuit breakers is recommended. The pres-
 ent use of neutral conductors should be abandoned.
